

Rapido Ride Analytics Dashboard

Power BI Analytics Project | Mobility Data Analysis

DATASET

Simulated ride-level mobility dataset inspired by Rapido operations
50K+ ride records analyzed

OBJECTIVE

Analyze ride demand, revenue trends, service performance, cancellations, and operational patterns.

TOOLS USED

Power BI Power Query
DAX Data Visualization

ANALYSIS COVERED

- 50K rides
- Service performance
- Revenue analysis
- Location trends
- Peak demand patterns
